Basics I

Session One – Using the Mouse and Keyboard – Like all classes in the series, this class is very hands-on.

Session Two – Internet Navigation – Learn what the Internet is, how to navigate around it, and use a search engine.

Session Three – Electronic Mail (E-mail) – Students will learn to establish an e-mail account and practice using the service.

Session Four – Individualized Instruction and Practice – Students may bring their own laptop computers and discuss any additional issues or questions.

Basics II

Session One – Word Processing – Learn to format, edit, and enhance text as well as import text and graphics.

Session Two – Photo Editing – Students will learn to import pictures and adjust the images. A digital camera will be provided by the instructors.

Session Three – File Management – Effectively manage data on the computer, transfer files to a flash drive, and burn data CDs.

Session Four – Review and Practice – Students will practice their skills by creating a simple promotional flyer for the Library Computer Class.

These classes are supported by a bequest from the Kenneth A. & Lucille D. Hulburt Family Trust. For more information, please see the Jackson County Library Services Web site at www.jcls.org.
